Suitable Extinguishing Media:	Water spray, CO ₂ , dry chemical or alcohol-resistant firefighting foam.
Unsuitable Extinguishing Media:	Do not use water jet.
Specific Hazards from Product:	Flammable liquid and vapors. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of subsequent explosion. Vapors/gas may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back, causing fire or explosion. Runoff to sewer may create fire or explosion hazard.
Hazardous Thermal Decomposition Products:	Carbon dioxide (CO ₂); carbon monoxide (CO); metal oxide/oxides.
Specific Firefighting Methods:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Special Protective Equipment/Precautions for Firefighters:	Firefighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal Precautions:	Put on appropriate personal protective equipment (see Section 8).
Environmental Precautions And Clean-Up Methods:	Eliminate all ignition sources. Stop all leaks if without risks. Prevent runoff from entering drains, sewers, streams or other bodies of water. Absorb spill with inert material. Transfer contaminated absorbent to containers for disposal.

SECTION 7 – HANDLING AND STORAGE

Precautions for Safe Handling:	Keep away from heat and sources of ignition. Avoid breathing mist/spray. Handle in accordance with good industrial hygiene and safety practices. .
Conditions for Safe Storage:	Do not store near heat, sparks or open flame. Store in a cool, well-ventilated place. Keep container tightly closed. Keep out of reach of children.
